

Foot and Ankle Quarterly

Volume 22

Spring - Anatomic Updates of the Foot and Ankle

Daniel Bareither, MD, Guest Editor

Audio Lecture I: Soft Tissue Anatomy of the First Metatarsophalangeal and First Tarsometatarsal Joints

Daria Dykyj, DPM

Audio Lecture II: Anatomy of the Deltoid Ligament and its Importance in Ankle Fractures

Andrew J Meyr, DPM

Feature Article: Skin Tensions Lines of the Foot: The importance in incision planning and grafting

Charles C. Southerland, Jr., DPM, FACFAS

Summer - Vascular Assessment and Treatment

Desmond P. Bell, DPM and Yazan Khatib, MD, Guest Editors

Audio Lecture I: Preserving the Ischemic Lower Extremity

Desmond P. Bell, DPM

Audio Lecture II: Critical Limb Ischemia: The Cardiovascular Perspective

Yazan Khatib, MD

Feature Article: Vascular Assessment Modalities

Arti Balar Masturzo, DPM

Fall - Trauma

Aksone Nuvuong, DPM, Guest Editor

Audio Lecture I: Achilles Tendon Injuries and Treatment Options

Shane Hollawell, DPM

Audio Lecture II: TBA

Michael Van Pelt, DPM

Feature Article: TBA

Winter - Hallux Valgus

Vincent J. Hetherington, DPM, Guest Editor

Audio Lecture I: A Practical Approach to Complications of Hallux Valgus

Matthew DeMore, DPM

Audio Lecture II: TBA

Feature Article: Radiographic Considerations for Hallux Valgus

Lawrence Osher, DPM

Foot and Ankle Quarterly

Volume 21

Spring - Clinical Foot and Ankle Pharmacology

Robert G. Smith, DPM, RPh, CPed

Audio Lecture I: Relative Drug Interactions for the Foot and Ankle Physician

Robert Smith, DPM, RPh, CPed

Audio Lecture II: Peri-operative Medication Considerations

Martin C. Yorath, DPM, FACFAS, FACFAOM

Feature Article: A Prescription for "Prinum Non Nocere": Clinical Pharmacology Reviewed

Robert Smith, DPM, RPh, CPed

Summer - MRI of the Foot and Ankle

Robert Baron, DPM, Guest Editor

Audio Lecture: Magnetic Resonance Imaging of the Foot and Ankle

Robert L. Baron, DPM, FACFAOM

Feature Article: Metastatic B-Cell lymphoma Involving the Lower Extremities: A Rare Case Report with Special Emphasis on the Magnetic Resonance Imaging Features

Robert L. Baron, DPM, FACFAOM; Adam E. Fleischer, DPM, MPH; Katherine Dux, DPM; Paul T. Basile, DPM, FACFAS

Fall - Cutaneous Manifestations of the Foot

Marc A. Brenner, DPM

Audio Lecture I: Onychomycosis: The Battle Wages on with New Technologies

John D. Mozena, DPM

Audio Lecture II: Bullous Disorders of the Skin

Bradley W. Bakotic, DPM, DO

Feature Article: Xenograft Management of the Lower Extremity Wounds: Is one Xenograft better than the next?

Jeffrey C. Karr, DPM

Winter - Total Ankle Replacement

Denise Mandi, DPM, Guest Editor

Audio Lecture I: Total Ankle Replacement: Indications/Contraindications/Complications

Vincent J. Mandracchia, DPM, MHA

Audio Lecture II: Total Ankle Replacement Technique

John F. Grady, DPM

Feature Article: The STAR Total Ankle Replacement

Robert W. Mendicino, DPM, FACFAS; Alan R. Catanzariti, DPM, FACFAS; Dan L. Shadrick, DPM

Foot and Ankle Quarterly

Volume 20

Spring - Diabetic Neuropathies

Andrew J. M. Boulton, MD, DSc, FRCP, Guest Editor

Audio Lecture I: Examination of the Peripheral Nervous System in the Patient with Diabetes

Lee C. Rogers, DPM

Audio Lecture II: Pathogenic Treatment for Diabetic Neuropathy

Nicholas J. Bevilacqua, DPM

Feature Article: Current Options and New Developments in Diabetic Neuropathy

Bruce A. Perkins, MD and Vera Bril, MD

Summer - Advances in Internal Fixation

Glenn M. Weinraub, DPM, Guest Editor

Audio Lecture I: Locked Plating

Richard Derner, DPM

Audio Lecture II: Complications of Internal Fixation

Lawrence G. Rubin, DPM

Feature Article: Review of the Advances in Internal Fixation

Graham A. Hamilton, DPM and Sandeep Patel, DPM

Fall - Intramedullary Nailing

Keith A. Goss, DPM, Guest Editor

Audio Lecture I: Intramedullary Nailing and Ankle Fusion

Douglas Pacaccio, DPM

Audio Lecture II: Complications and Revision Strategies of Intramedullary Nailing

Jennifer Seuss, DPM

Feature Article: Intramedullary Nailing

Douglas Pacaccio, DPM

Winter - 2nd Metatarsophalangeal Joint Instability

Annette Filiatrault, DPM

Audio Lecture I: Second Metatarsophalangeal Joint Instability and Repair of the Plantar Plate

Craig A. Camasta, DPM

Audio Lecture II: Flexor Digitorum Longus Tendon Transfer

Jack Schuberth, DPM

Feature Article: Second MTPJ Instability: The Tree within the Forest -*Luke D. Cicchinelli, DPM*

Foot and Ankle Quarterly

Volume 19

Spring - Infectious Disease

Warren S. Joseph, DPM, Guest Editor

Audio Lecture I: Diabetic Foot Infections: A New Classification

Warren S. Joseph, DPM

Audio Lecture II: Antibiotic Update

Mark A. Kosinski, DPM

Feature Article: Methacillin-Resistant Staphylococcus aureus Infections: A Challenging Endeavor for the Foot and Ankle Physician

Robert G. Smith, DPM

Summer - Charcot Arthropathy

Robert Frykberg, DPM, MPH, Guest Editor

Audio Lecture I: Natural History of Charcot Arthropathy

Jeffery C. Page, DPM

Audio Lecture II: Treatment Principles

Martin C. Yorath, DPM, FACFAS, FACFAOM

Feature Article: Pharmacological Management of the Acute Charcot Foot

Edward B. Jude, MD, MRCP

Fall - Orthobiologics

Gary Lepow, DPM, FACFAS, Guest Editor

Audio Lecture I: Osteochondral Repair of the 1st MTP Utilizing a Synthetic Scaffold

Gary Lepow, DPM, FACFAS

Audio Lecture II: Bone Grafting Options in the Foot and Ankle

Thomas Chang, DPM

Feature Article: Current Options and Developments in Biologics

Gabriele Niederauer

Winter - Tendinopathies

Paul J. Kim, DPM, AACFAS, Guest Editor

Audio Lecture I: Peroneal Tendons: Anatomical and Functional Considerations for Surgical Repair

Michael J. Cornelison DPM, FACFAS

Audio Lecture II: Achilles Tendinopathy: An Overview

Bruce Werber, DPM

Feature Article: Current Concepts in the Treatment of Tendinopathies - *Paul J. Kim DPM, AACFA*

Foot and Ankle Quarterly

Volume 18

Spring - Pediatrics

Edwin J. Harris, DPM, Guest Editor

Audio Lecture I: Pediatric Foot and Ankle Ramifications of Collagen Disease

Patrick S. Agnew, DPM, FACFAS

Audio Lecture II: Heel Pain in the Pediatric Patient

Kimberly M. Eickmeier, DPM

Feature Article: Foot Foreign Bodies in the Pediatric Foot: Meeting the Challenge

Edwin J. Harris DPM

Summer - Pathology Specific Orthoses

Paul R. Scherer, DPM, Guest Editor

Audio Lecture I: Understanding the Mechanics of the First Metatarsalphalangeal Joint

Paul R. Scherer, DPM

Audio Lecture II: Pathology Specific Orthoses for Tarsal Tunnel

Lawrence Huppig, DPM

Feature Article: Foot Orthoses: Therapeutic Efficacy, Theory and Research Evidence for their Biomechanical Effect

Kevin A. Kirby, DPM

Fall - Extracorporeal Shock Wave Therapy

Francis J. Rottier, DPM, Guest Editor

Audio Lecture I: Basic Science Review of Extracorporeal Shock Wave Therapy Technology Used in Treatment of Foot and Ankle Pathology

Kimberly M. Eickmeier, DPM

Audio Lecture II: Use of Extracorporeal Shock Wave Therapy for Foot and Ankle Injuries in Athletes

James Losito, DPM

Feature Article: TBA

Michael Chin, DPMTBA

Winter - External Fixation

Thomas S. Roukis, DPM, FACFAS, Guest Editor

Audio Lecture I: Post Operative Care and Physical Rehabilitation

Luis Marin, DPM, FACFAS

Audio Lecture II: Psychological Aspects of External Fixation

Vincent J. Mandracchia, DPM, MS, FACFAS

Feature Article: Surgical Correction of Severe Charcot Foot and Ankle Deformities with External Fixation Devices: Review of the Literature, Authors Preferred Technique, and Outcomes

Thomas Zgonis, DPM FACFAS

Foot and Ankle Quarterly

Volume 17

Spring - Morton's Neuroma

J. Marshall Devall, DPM, Guest Editor

Audio Lecture I: Update on the Treatment of Morton's Neuroma

Selwyn Willis, DPM

Audio Lecture II: Complications of Morton's Neuroma

Catherine Rezendes, DPM, FACFAS

Feature Article: Neuromas in the 21st Century

Tim Neylon, DPM

Summer - Surgical Off-loading

Lawrence A. Lavery, DPM, Guest Editor

Audio Lecture I: Surgical Off-loading to Facilitate Ulcer Healing

Frank Rottier, DPM

Audio Lecture II: Surgical Off-loading of the Diabetic Foot

Carl Van Gils, DPM

Feature Article: Surgical Off-loading of the Diabetic Foot

John S. Steinberg, DPM; George T. Liu, DPM; Anthony Yung, DPM

Fall - Mechanical Off loading

Lawrence A. Lavery, DPM, Guest Editor

Audio Lecture I: In-shoe Pressure Analysis in Diabetic Off-loading

Bruce E. Williams, DPM

Audio Lecture II: Biomechanical Considerations on Off-Loading the Diabetic Foot

Vincent Giacalone, DPM

Feature Article: Mechanical Off-loading of the Diabetic Neuropathic Foot

Cordell Atkins, PT

Winter - Pes Planovalgus

Gary Lepow, DPM, FACFAS, Guest Editor

Audio Lecture I: Diagnosis and Surgical Treatment of Pes Plano Valgus

Gary Lepow, DPM, FACFAS

Audio Lecture II: Treatment of the Rigid Flatfoot Deformity

Thomas Chang, DPM, FACFAS

Feature Article: Biomechanics of the Adult Acquired Flatfoot

Douglas H. Richie, Jr, DPM

Foot and Ankle Quarterly

Volume 16

Spring - Rearfoot Arthrodesis and Arthroereisis

Jason R. Hanft, DPM, Guest Editor

Audio Lecture I: The Isolated Subtalar Joint Arthrodesis: Clinical Correlations and Surgical Technique

Molly S. Judge, DPM, FACFAS

Audio Lecture II: Subtalar Joint Arthroereisis

Thomas S. Roukis, DPM, FACFAS

Feature Article: Rearfoot Arthrodesis: Current Concepts of Internal and External Fixation

James R. Hanft, DPM, FACFAS; George Vito, DPM, FACFAS; Kerry Temar, DPM, MS; William Warren, DPM, MS; Leonard Talarico, DPM; Dana Linn, DPM; John Perrone, DPM; Floyd Pacheco, DPM

Summer - Core Principles of Wound Healing in the Macro and Micro Environment

William Ennis, DO, Guest Editor

Audio Lecture I: Examining the Environments of Healing: The Wound Microenvironment

Liza Ovington, PhD

Audio Lecture II: Therapeutic Angiogenesis: Control of the New Blood Vessel Growth for Wound Healing

William W. Li, MD

Feature Article: Treating the Macro and Micro Wound Environment of the Diabetic Patient: Managing the Whole Patient, Not the Hole in the Patient

Vickie R. Driver, DPM

Fall - Soft Tissue and Bone Infections

Jeffery C. Page, DPM, FACFAS, Guest Editor

Audio Lecture I: The Role of Bacterial Toxins in Delayed Wound Healing

Liza Ovington, PhD

Audio Lecture II: Diabetic Foot Infections

Robert G. Frykberg, DPM

Feature Article: The Utility of Nuclear Medicine Leukocyte Studies in the Differential Diagnosis of Bone and Joint Infections in the Lower Extremity - An Academic Review

Molly S. Judge DPM, FACFAS, CNMT; Nellie L. Kelly, MAS, CNMT

Winter - Bracing and Orthotics

Alexander Reyzelman, DPM, Guest Editor

Audio Lecture I: Determining the Best Orthotic for your Diabetic Patient

Allison Jo Cook, DPM

Audio Lecture II: Biomechanics of Shoes and Bracing

Eric A. Fuller, DPM

Feature Article: Review of Orthopedic Shoes and Orthotics for the Diabetic Foot

Mardon R. Day, DPM

Foot and Ankle Quarterly

Volume 15

Spring - Charcot Arthropathy

Douglas P. Murdoch, DPM, Guest Editor

Audio Lecture I: Charcot

Troy Overbeek, DPM

Audio Lecture II: Charcot Arthropathy

Douglas P. Murdoch, DPM

Summer - Hallux Valgus

Terese J. Laughlin, DPM, FACFAS

Audio Lecture: Evaluation and Management of Symptomatic Hallux Abductovalgus Deformity

John G. Fleischli, DPM, FACFAS; Jennifer Kaleta DPM, FACFAS; Thomas Roukis, DPM; Matthew Garafoulis, DPM

Feature Article: Current Concepts in Hallux Valgus Surgery

Terese J. Laughlin, DPM, FACFAS

Fall - Wound Healing Technology in Diabetics

Ann M. Zmuda, DPM, Guest Editor

Audio Lecture I: The Anodyne Therapy System: Impact on Podiatric Medicine

Thomas J. Burke, PhD

Audio Lecture II: Use of Advanced Tissue Engineered Products in the Healing of Chronic Diabetic Wounds

Matthew G. Garoufalis, DPM, FACFAS, FACFAOM, CWS

Winter - Flatfoot Reconstruction

Lowell Scott Weil, Jr., Guest Editor

Audio Lecture: Flatfoot in Children and Adults

Anthony Borelli and Lowell Scott Weil Jr.

Foot and Ankle Quarterly

Volume 14

Spring - Electrical Stimulation and Fracture Healing

George F. Wallace, DPM, Guest Editor

Audio Lecture I: Principles of Electric Bone Stimulation

Horst P. Knapp, DPM

Audio Lecture II: Use of Electric Bone Stimulation in Podiatric Medicine and Surgery

Horst P. Knapp, DPM

Feature Article: Fracture Healing and Electric Stimulation

Kevin M. Healy, DPM

Summer - Hallux Rigidus

Coleen H. Napolitano, DPM

Audio Lecture I: Hallux Limitus/Rigidus

Myron I. Wolf, DPM, FACFAS

Audio Lecture II: Hallux Limitus/Rigidus: Reconstructive Surgery Versus Arthrodesis

J. Michael Miller, DPM, FACFAS

Feature Article: Hallux Limitus and Hallux Rigidus

Coleen H. Napolitano, DPM; Ann M. Zmuda, DPM

Fall - Heel Pain

Marque A. Allen, DPM, Guest Editor

Audio Lecture I: MR Imaging of Heel Disorders

Mark E. Schweitzer, MD

Audio Lecture II: Extracorporeal Shock Wave Therapy for Insertional Plantar Fasciitis

Walter W. Strash, DPM, FACFAS

Winter - Peripheral Sensory Neuropathy

Robert P. Wunderlich, DPM, Guest Editor

Audio Lecture I: Differential Diagnosis of Distal Symmetrical Sensory Polyneuropathy

Daniel Cohen, DPM; John Perrone, DPM; Kerry Temar, DPM

Audio Lecture II: Diagnosing Peripheral Sensory Neuropathy

Hisham Ashry, DPM, FACFAS

Feature Article: Treatment of Symptomatic Diabetic Neuropathy of the Lower Extremity

Robert P. Wunderlich, DPM

Foot and Ankle Quarterly

Volume 13

Spring - Posterior Tibial Tendon Dysfunction

John G. Fleischli, DPM, AACFAS, Guest Editor

Audio Lecture I: Tibialis Posterior Tendon Dysfunction: Pitfalls in Treatment

Rodney M. Stuck, DPM, Lowell Scott Weil, Jr., John G. Fleischli, DPM

Feature Article: Evaluation and Management of Posterior Tibial Tendon Dysfunction

Terese J. Laughlin, DPM, AACFAS

Summer - Sports Medicine

Amol Saxena, DPM, FACFAS, Guest Editor

Audio Lecture I: Ethics in Sports Medicine

William E. Straw, MD

Audio Lecture II: Ankle Sprains in Athletes

Amol Saxena, DPM, FACFAS; Fred L. Behling, MD, K. Gordon Campbell, MD

Feature Article: Treatment of Lower Extremity Stress Fractures with Pulsed Electronic Magnetic Fields (PEMF): A Case Control Study and Comparison to the Literature

Amol Saxena, DPM, FACFAS

Fall - Diabetes

Vincent Giacalone, DPM, FACFAS, Guest Editor

Audio Lecture I: Off-loading the Diabetic Foot

Carine H. M. van Schie, MSc, PhD

Audio Lecture II: Bioengineered Tissue and the Advances in Healing Diabetic Foot Wounds with Apligraf

John S. Steinberg, DPM

Feature Article: The Noncompliant Patient: Does He or She Exist?

Kathleen Satterfield, DPM

Winter - Arthroscopy

John S. Steinberg, DPM, Guest Editor

Audio Lecture I: Arthroscopic Ankle and Subtalar Arthrodesis

Richard O. Lundeen, DPM

Audio Lecture II: Arthroscopic Treatment of Talar Dome Lesions

Walter W. Strash, DPM, FACFAS

Audio Lecture III: Basic Approach to Ankle Arthroscopy

Glenn M. Weinraub, DPM, FACFAS

Audio Lecture IV: Arthroscopic Latera Ankle Stabilization

Keith B. Kashuk, Mike Vaardahl, Nick Gunasayan, Daniel Cohen

Feature Article: An Overview of Ankle Arthroscopy

John S. Steinberg, DPM
